

Categorization of Completed Courses and Labs

Modules in programming, software technology and information systems

- C Programming
- Computer Programming Paradigms & Fundamentals
- Java Lab (SBL)
- Python Lab (SBL)
- Internet Programming
- WebX.0
- Software Engineering
- DevOps Lab
- Advance DevOps Lab
- MAD & PWA Lab
- Blockchain Lab
- Cloud Computing Practical
- Mini Project – IA Frontend/Backend App using Java
- Mini Project – IB Python Based Automation Projects
- Mini Project – 2A Web Based Business Model
- Mini Project – 2B Based on ML
- Major Project – I
- Major Project – II
- Recent Open Source Project Lab
- Management Information System

Modules in the theory of algorithms, computability and computational complexity

- Data Structure and Analysis
- Advance Data Structure and Analysis
- Data Structure Lab
- Automata Theory
- Information Retrieval System
- Computer Organization and Architecture

Modules in computer graphics, vision, audio signal processing and sensing

- Engineering Graphics
- Sensor Lab
- Deepfake Video Detection Project

Modules in foundations of IT security

- Computer Network Security
- Infrastructure Security
- Ethical Hacking and Forensic
- Security Lab
- Secure Application Development
- Blockchain and DLT

Modules in artificial intelligence

- AI and DS – I
- AI and DS – II
- Data Mining & Business Intelligence
- Big Data Analytics
- DS Using Python Skill Based Lab
- Data Science Lab

Modules in mathematics

- Engineering Mathematics – I
- Engineering Mathematics – II
- Engineering Mathematics – III
- Engineering Mathematics – IV
- Engineering Physics – I
- Engineering Physics – II

Modules in computer systems (operating systems, networks)

- Operating System
- Unix Lab
- Computer Network and Network Design
- Network Lab
- Wireless Technology

- Internet of Everything
- Principle of Communication
- Microprocessor Lab

Additional / Interdisciplinary Modules

- Database Management System
- SQL Lab
- Engineering Mechanics
- Basic Electrical Engineering
- Engineering Chemistry – I
- Engineering Chemistry – II
- Professional Communication and Ethics – I
- Entrepreneurship and E-business
- Business / Professional Communication & Ethics
- Environmental Management
- BI Lab
- Web Lab
- IP Lab
- IOE Lab
